*Your Source for Green System Solutions*

**PAE**

**Carmen Cejudo**

PAE Engineers  
Associate

Carmen's mechanical design experience is focused on energy and water efficiency in the built environment. She has provided consulting services for multiple projects with a variety of facility types for jurisdictions throughout Washington State. She's a past President of the ASHRAE Puget Sound Chapter and is active in IAPMO, ASPE and Engineers without Borders.

**Cheryl Jacobs**

NAC Architecture  
Associate Principal

As a project manager and passionate architect, Cheryl leads teams in the design of learning environments and wellness facilities. With a background in psychology, Cheryl is a champion for equity, diversity, and inclusion and is a leader in NAC's Diversity Initiative.

**Dax Stanley**

Johnson Barrow  
Business Development

Dax has over 20 years' experience designing and selling mechanical equipment, engaging in business development and establishing strategic partnerships within the HVAC industry. He is an enthusiastic proponent of the diversity necessary to accomplish ASHRAE's mission to advance the arts and sciences of HVAC to serve humanity and promote a sustainable world.

**Melinda Herrin**

Metrix Engineers  
Associate Principal

Melinda has 14 years of HVAC design and construction administration experience, most notably in the K-12 market sector, and has managed the development of many different system types and approaches built specific to suiting her client's project needs.
