

Hotstart.
THERMAL MANAGEMENT

PRODUCT DESIGN ENGINEER

Hotstart, Inc. has an opening for a Product Design Engineer working from our headquarters in Spokane, Washington. We are looking for a motivated candidate to help expand our capabilities and our portfolio of thermal management products. Hotstart is a global company with many challenging opportunities underway as well as in our future.

Primary Position Responsibilities:

- Initiate improvement activities that optimize product value, performance, and reliability
- Lead engineering change order projects
- Active participation in new product development activities
- Manage product design documentation and business system data
- Support sales staff and customers on product application and field support topics
- Assist manufacturing and quality assurance in product related activities

Desired Qualifications, Skills, and Attributes:

- Self-starter motivated to develop deep product expertise and play an active role in improvement activities
- Excellent communicator and experience working in cross-functional teams
- Desire to learn and utilize new technology to solve complex technical problems
- Willingness to participate in hands-on testing, troubleshooting, and prototype builds
- Outstanding computer skills and previous experience with SolidWorks design software
- Previous design experience with industrial equipment and machinery
- BS/MS in Mechanical or Electrical Engineering
- 2 or more years of professional experience in product design and development

Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Hotstart, Inc. is a world-leading manufacturer of industrial engine preheating systems and thermal management products. Established in 1942 and ISO 9001 certified, we have grown to over 180 employees in a modern manufacturing facility. The company provides a strong benefit package highlighted by medical, dental, vision and life insurance, 401(k) with contribution matching and profit sharing, and educational assistance. Email resume to careers@hotstart.com by 03/11/22 ~ Drug-free/EEO.
